### Frank Bostwick Tells Vivid Impressions of Bull Fight.

### ART AND RICHES OF OLD TOLEDO

**Spain a Land Advanced in Art but Behind in Modern Methods, and Love Making.**

In a letter to his mother, Frank Bostwick, the Coshocton boy now dental surgeon to His Royal Highness King Alphonso XIII at the royal court at Madrid, Spain, describing a bull fight, says:

"A bull is turned loose in the ring and bright colored flags or cloths are flashed at it. When it grows tired of running at these a man signals with a bugle. Then hooks, called amorellas, which are fastened on sticks two and three feet long are jabbed into the neck and shoulders of the beast to enrage him as he charges at the fighters. Sometimes there are six or eight hanging to him at once. After these have ceased to enrage him another bugle is heard and a man (if you would call him such) takes a red flag in one hand and a sword in the other. He flashes the flag in front of the beast until it charges at him with head down. He tries to thrust the sword into the base of its neck until the point reaches the bull's heart. After several attempts he finally succeeds in touching the spot or if he doesn't happen to strike the heart the sword is allowed to work out again by the bull tossing its head and running. The same thing is tried over and over and if he finally fails to kill the animal he stabs him just behind the horns severing the spinal cord. The dead bull is dragged out and another turned in. There were to have been five killed but I left after seeing two.

"I do not like Madrid as a place to live—a little bit too hot—125 degrees Fahrenheit. Some English writer has said: 'Madrid has three months winter and nine months hell'. This country is all right for sight seeing but as a country to live in it is abominable.

"Since I left you in New York I have certainly seen more than it is possible for me to describe. I went Saturday night with an American an Englishman and a Spaniard who speaks English very well, to Toledo, one of the greatest historic cities in the world. I was in a cathedral there, the magnificence of which I never knew existed. The paintings, statuary etc. are beyond description. On an image of the Virgin Mary they have more than enough jewels to pay the national debt of Spain and there is another altar made of solid gold. Toledo is a walled city and one of the strongest, but was captured and recaptured by the different nations of Europe and Africa during the wars of conquest. It has been ruled by the Romans, Arabs, French and Spanish but in what order the various nations ruled it, I don't know. It is really an Arabian city. I saw what was left of the old arena where the Christians were put to death and where the gladiators fought. I have a rock taken from the arch over the entrance. I was in a church which was built before the time of Christ and which today is in fairly good preservation. There are old castles, some of which are in good condition and others which are tumbling down. It is certainly wonderful how far advanced in art they are and how far behind in other things. Would you believe me if I should tell you that there are by far more forked sticks used as ploughs than there are of the crudest kind of modern agricultural implements. It is no wonder that so few tourists visit this country as it is so far out of the way and places are so hard to get to. I went to bed night before last by candle light in a good sized city and in a first class hotel.

"I have seen what I have often read about, the way the Spanish men court the women. The girls are behind barred windows as all the windows are that way here, especially those on the first floors or on the balcony of the second floor. They talk to their lovers who stand below and on Sundays they practically spend the day talking at long range. Well excuse me from that kind of courting. I shall stay single first."

**Noted Singer Coming.**

Macondra, the great soprano will sing at the opera house Friday, December 12. Negotiations have been closed between the prima donna's manager and a committee of the high school societies, and a contract signed. The young people have received much encouragement and praise for their progressive spirit and the indications are that the house will be crowded. The concert will be one of the best ever given in Coshocton and tickets will be sold at from 50 cents to $1.

The evening was given up to good cheer, and the members of Richard Lanning post G. A. R. and scores of friends of the order availed themselves of the invitation extended.

The Agriculture Experiment Station, Orono, Maine, Bulletin No. 84, which gives an analyses of about 350 different kinds of Cereal Breakfast Foods says this about California Wheatine. "California wheats do not carry large amounts of gluten as is illustrated by the low protein content, 9.88 per cent. Only one other of the 19 wheat foods examined carried as little protein as this. From the amounts of crude fibre and ash present, California Wheatine is probably prepared from more or less imperfectly decorticated wheat." This gives the reader an idea of the premiums he is paying for his breakfast foods over the price of White Lily flour, actually showing less protein per pound; while he pays 15c. for one and 2c for the other. **To Whom it May Concern.**

It has just been made known to us that a report has been circulated in and about this city to the effect that the Central Union Telephone company, does not intend to build lines to Warsaw and other points in Coshocton county. We desire to say that such reports are absolutely groundless. This company now has poles enroute for Warsaw extension and lines, already completed, or in course of erection to Franklin, Keene, Willowbrook and Avondale are irrefutable evidence of the falsity of such reports by whoever made. Look for the "Blue bell." It stands for all that is best in telephony. Central Union Telephone Co.

## TO REDISTRICT CITY

### Council And Board of Trade to Join in the Work.

### SPECIAL SESSION TO BE HELD

**Extension of Eleventh Street Also to be a Matter of Special Consideration Friday.**

Council held its regular session at city hall Tuesday evening with councilmen Powelson, Tisn. Pharion, Zugschwert, Holmes, Brink, Weisner and Dencer present.

The extension of Eleventh street was the first business brought up. The street will pass through the Hay and Shannon properties and appraisements of their value were reported. The valuation fixed on the Hay property was $1350 and the Shannon property $950. Council decided to devote a special meeting to this important question and an adjourned session will be held Friday evening for that purpose.

Two ordinances were read by Clerk Wimmer, one for the extension of Walnut street over the W. & L. E. tracks and the other for the improvement of the west side of Fifth street.

Robert Boyd was present and on behalf of the board of trade, asked council to establish the grades in the board of trade third addition. Mr Powelson's motion that the grades be established was carried. He also suggested the redistricting of the city in to four wards in conformance to the provisions of the new code and that council meet with a committee of the board of trade to consider the matter. Secretary Boyd responded that he could assure the co-operation of the board. It was decided that a meeting with a board of trade committee be held in Secretary Boyd's office next Wednesday evening.

Solicitor McDowell said he had communicated with Secretary of State Laylin concerning the procuring of copies of the new code and had been assured that the Coshocton council will be supplied just as soon as possible.

Next came the bill ordinance. Only eight members being present the legality of passing such an ordinance arose. Solicitor McDowell and Mr. Powelson entered upon a discussion of this technicality of the law, which was all Greek to the other members. At last the bill ordinance was passed and council adjourned until Friday evening.

# Blood Wine Prolongs Your Life

**In Bath, Me., there is an institution for people of advanced years, where every comfort is provided, and every [illegible] taken to prolong the lives of the [illegible]. "Blood Wine" is used for [illegible] rent troubles, and statistics show [illegible] at, since its introduction there about a year ago, the percentage of sickness has been greatly reduced. "Blood Wine" is, beyond doubt, a grand thing for aged people. It increases the appetite, tones up the nerves, nourishes the weakened tissues, and brings back to a remarkable degree the strength and vitality of youth. Mrs. M. C. Weston, whose motherly face we give above, is an inmate of the Home and has been so pleased with "Blood Wine" that she recently wrote these few short lines, which, however, convey a truth that couldn't be made stronger in a whole page:**

**"I have taken six bottles of 'Blood Wine,' and know that it is excellent for aged people. I was greatly benefited after one bottle."**

**One bottle of "Blood Wine," costing fifty cents, will quickly convince any one that Mrs. Weston has not over estimated its worth one mite. It is a wonderful [illegible] producer for elderly people.**

### Garb For Naval Prisoners.

Washington, Nov. 25.—The navy department has decided upon a distinctive prison garb for marines and enlisted men in the navy. It will be a plain, dark-gray uniform, blouse and trousers, with a round-brimmed soft hat of the same hue. Heretofore enlisted men serving terms in naval prisons have worn their old uniforms. This was regarded as hard upon the other men in the service and the prison uniforms were decided upon.

### Laborers Killed.

Denison, Tex., Nov. 25.—The opening of a switch in the Sealey, I. T., yards of the Frisco while a northbound extra was passing caused the latter half of the extra to leave the track. The derailed cars plunged across the yard and ploughed into a string of boarding cars on the siding, where 75 laborers were quartered. Two were killed and 15 injured. The dead are Dan Lynch and James Brophy.

### Civil Service For Late War Veterans.

Washington, Nov. 25.—Colonel Emmet Urell, commander-in-chief of the Spanish War veterans, accompanied by Fred C. Hodgson and G. Leyburn Sherry, officials of the organization, have urged the president to place under the civil service all the Spanish war veterans who are now serving the government in a clerical capacity in the Philippines. President Roosevelt promised to consider the request.

## HEAT IS POPULAR.

### People Taking Kindly to Heat Without Dirt and Ashes

No new institution ever established in Coshocton has become more popular than the central system of heating as is evidenced by the fact, scarcely a year old, 50 residences and a score of offices and business rooms are being heated from the central station. A gang of 22 men is employed constantly and has been for several months installing the system in residences and buildings all over the city, and still people are clamoring for greater speed in the work, fearing being caught by the nipping weather without the heat with which all the trouble is confined to the simple operation of turning a wheel. The [illegible] connected with the service are:

## CURTAIN CAUGHT FIRE.

### End of Match Ignites Filmy Material in Hay Home.

Mrs. Houston Hay, who resides on Walnut street, received a nervous shock Monday evening from which she has scarcely recovered. She had gone into the bathroom in the evening and lighted the gas. A piece of the lighted brimstone of the match flew into the curtains that drape the window. Mrs. Hay went out of the room for a moment and was horrified upon her return to find the curtains ablaze. With presence of mind she dashed water upon the curtains until the flames were extinguished and but little damage was done.

### "Uncle Joe" Cannon's Dilemma.

"Oh, the boys won't do a thing to 'Uncle Joe' Cannon and the appropriations committee this session!" said an observer of the speakership contest the other day to a Washington correspondent of the New York Tribune. "Just think of how the fellows he has 'turned down' will go for him when congress meets! I can just see them now, first giving out a little interview declaring themselves as still on the fence on the speakership candidacy and then going around to 'Uncle Joe' and saying, 'Well, now, how about that little matter—that appropriation for my district I have been trying to get into the sundry civil for so long?' Huh! It seems to me they will have 'Uncle Joe' between the devil and the deep blue sea. I don't know which would be harder for him [illegible] to have to give up some of those appropriations he has denied the boys or [illegible] the votes slipping away from him. [illegible] kind of rough on 'Uncle Joe,' but it will be nuts for the boys."

FURS! [illegible]

A few words about fur scarfs that will be interesting to fur buyers. The matter of purchasing furs is peculiar for several reasons: Namely, the merchant who buys furs right and gets his furs perfect, must buy very early in the season. The H. H. Griggs Company, with which we are associated, bought early in the season, nearly one quarter of a million of dollars worth of furs, to be made up during the early season from the choicest skins. Naturally as the season progresses the stock of raw skins diminishes and later buyers must take what is left. Another strong reason is no manufacturer can produce finished furs today at the same cost he did early in the season. These are sufficient reasons why we buy our furs early and in large quantities. We have in stock today the largest line we have ever had. Embracing everything from a Coney at 75c up to the finest Sable and Martin. Compare our prices on furs with any on the market, that is all we ask.

Our furs are all perfect. No bad skins used and no imperfections. We carefully inspect every piece and return any fur that is not absolutely perfect. We do not offer any piece to our trade that is not the very best to be had in its class.

When you are ready to buy furs give our line your attention. It means much to you.

Come to the Fountain for your Dry Goods, Carpets and ready to wear garments. You will not be disappointed. We will give you the very best of everything on the market for the money.

### Frank Bostwick Tells Vivid Impressions of Bull Fight.

### ART AND RICHES OF OLD TOLEDO

**Spain a Land Advanced in Art but Behind in Modern Methods, and Love Making.**

In a letter to his mother, Frank Bostwick, the Coshocton boy now dental surgeon to His Royal Highness King Alphonso XIII at the royal court at Madrid, Spain, describing a bull fight, says:

"A bull is turned loose in the ring and bright colored flags or cloths are flashed at it. When it grows tired of running at these a man signals with a bugle. Then hooks, called aurorellas, which are fastened on sticks two and three feet long are jerked into the neck and shoulders of the bull to enrage him as he charges at the fighters. Sometimes there are six or eight hanging to him at once. After these have ceased to enrage him another bugle is blown and a man with what would call him such takes a red flag in one hand and a sword in the other. He flashes the flag in front of the beast until it charges at him with head down. He tries to thrust the sword into the base of its neck until the point reaches the bull's heart. After several attempts he finally succeeds in touching the spot or if he doesn't happen to strike the heart the sword is allowed to work out again by the bull tossing its head and running. The same thing is tried over and over and if he finally fails to kill the animal he stabs him just behind the horns severing the spinal cord. The dead bull is dragged out and another turned in. There were to have been five killed but I left after seeing two.

"I do not like Madrid as a place to live—a little bit too hot—125 degrees Fahrenheit. Some English writer has said: 'Madrid has three months winter and nine months hell.' This country is all right for sight seeing but as a country to live in it is abominable.

"Since I left you in New York I have certainly seen more than it is possible for me to describe. I went Saturday night with an American an Englishman and a Spaniard who speaks English very well, to Toledo, one of the greatest historic cities in the world. I was in a cathedral there, the magnificence of which I never knew existed. The paintings, statuary etc. are beyond description. On an image of the Virgin Mary they have more than enough jewels to pay the national debt of Spain and there is another altar made of solid gold. Toledo is a walled city and one of the strongest, but was captured and recaptured by the different nations of Europe and Africa during the wars of conquest. It has been ruled by the Romans, Arabs, French and Spanish but in what order the various nations ruled it, I don't know. It is really an arabian city. I saw what was left of the old arena where the Christians were cut to death and where the gladiators fought. I have a rock taken from the arch over the entrance. I was in a church which was built before the time of Christ and which today is in fairly good preservation. There are old castles, some of which are in good condition and others which are tumbling down. It is certainly wonderful how far advanced in art they are and how far behind in other things. Would you believe me if I should tell you that there are by far more forked sticks used as ploughs than there are of the crudest kind of modern agricultural implements. It is no wonder that so few tourists visit this country as it is so far out of the way and places are so hard to get to. I went to bed night before last by candle light in a good sized city and in a first class hotel.

"I have seen what I have often read about, the way the Spanish men court the women. The girls are behind barred windows as all the windows are that way here, especially those on the first floors or on the balcony of the second floor. They talk to their lovers who stand below and on Sundays they practically spend the day talking at long range. Well excuse me from that kind of courting. I shall stay single first."

**Noted Singer Coming.**

Madonda, the great soprano will sing at the opera house Friday, December 12. Negotiations have been closed between the prima donna's manager and a committee of the high school societies, and a contract signed. The young people have received much encouragement and praise for their progressive spirit and the indications are that the house will be crowded. The concert will be one of the best ever given in Coshocton and tickets will be sold at from 50 cents to $1.

### ENJOYABLE SOCIAL SESSION

**Woman's Relief Corps Convention Adjourns Without Selecting Place of Meeting—Official Register.**

President, Rose Batch, Coshocton. Patriotic Instructor, Alice Whittaker, McConnelsville.

Coshocton was honored by the women of the fifth district convention W. R. C., in the choice of Mrs. Batch, one of this city's most prominent women, as district president. The other officers aside from those mentioned above, will be elected at the department encampment in May. The convention adjourned without selecting the place for next year's meeting

Tuesday afternoon was devoted to executive session, exemplification of the ritual and general business.

The evening was given up to good cheer, and the members of Richard Lanning post G. A. R. and scores of friends of the order availed themselves of the invitation extended.

The members of the convention took dinner and supper at the Baptist church. The visitors were lavish in their praise of Coshocton's hospitality and gave frequent expressions to their enjoyment of their visit.

Those registered during the day were:

The Agriculture Experiment Station, Orono, Maine, Bulletin No. 84, which gives an analyses of about 350 different kinds of Cereal Breakfast Foods says this about California Wheatine. "California wheats do not carry large amounts of gluten as is illustrated by the low protein content, 9.88 per cent. Only one other of the 19 wheat foods examined carried as little protein as this. From the amounts of crude fibre and ash present, California Wheatine is probably prepared from more or less imperfectly decorticated wheat." This gives the reader an idea of the premiums he is paying for his breakfast foods over the price of White Lily flour, actually showing less protein per pound; while he pays 15c. for one and 2c for the other. 1t

It has just been made known to us that a report has been circulated in and about this city to the effect that the Central Union Telephone company, does not intend to build lines to Warsaw and other points in Coshocton county. We desire to say that such reports are absoluteiy groundless. This company now has poles enroute for Warsaw extension and lines, already completed, or in course of erection to Franklin Keene, Willowbrook and Avondale are irrefutable evidence of the falsity of such reports by whoever made. ## TO REDISTRICT CITY

### Council And Board of Trade to Join in the Work.

### SPECIAL SESSION TO BE HELD

**Extension of Eleventh Street Also to be a Matter of Special Consideration Friday.**

Council held its regular session at city hall Tuesday evening with councilmen Powelson, Tisb, Pharion, Zugschwert, Holmes, Brink, Weisner and Dencer present.

The extension of Eleventh street was the first business brought up. The street will pass through the Hay and Shannon properties and appraisements of their value were reported. The valuation fixed on the Hay property was $1350 and the Shannon property $950. Council decided to devote a special meeting to this important question and an adjourned session will be held Friday evening for that purpose.

Two ordinances were read by Clerk Wimmer, one for the extension of Walnut street over the W. & L. E. tracks and the other for the improvement of the west side of Fifth street.

Robert Boyd was present and on behalf of the board of trade, asked council to establish the grades in the board of trade third addition. Mr Powelson's motion that the grades be established was carried. He also suggested the redistricting of the city in to four wards in conformance to the provisions of the new code and that council meet with a committee of the board of trade to consider the matter. Secretary Boyd responded that he could assure the co-operation of the board. It was decided that a meeting with a board of trade committee be held in Secretary Boyd's office next Wednesday evening.

Solicitor McDowell said he had communicated with Secretary of State Laylin concerning the procuring of copies of the new code and had been assured that the Coshocton council will be supplied just as soon as possible.

Next came the bill ordinance. Only eight members being present the legality of passing such an ordinance arose. Solicitor McDowell and Mr. Powelson entered upon a discussion of this technicality of the law, which was all Greek to the other members. At last the bill ordinance was passed and council adjourned until Friday evening.

# GOMEZ SOUGHT PEACE

## Cuban Warrior Denounces the Strike In Havana.

### WILL RESUME WORK IMMEDIATELY.

**Mediation of General Gomez Leads to Company Asserting That They Would Increase Number of Cuban Apprentices—Will Meet Committee, but Does Not Recognize Union.**

Havana, Nov. 26.—The strike here, which was started by the cigarmakers and in which many other trades joined, causing a general suspension of work, followed by serious riots, has been called off by the Central Labor union, and committees were appointed to inform the various unions of this decision. There probably will be a complete resumption of work at once. Much of the credit for the settlement of the strike is due to General Gomez, who headed the committee which consulted the officials of the Havana Commercial company, against whom the strike was first directed.

After the meeting General Gomez and the majority of the committee expressed themselves as satisfied at the stand that the company had taken. The officials maintained that they had not discriminated against Cuban apprentices, the fact being that the company's books showed that over 50 per cent of its apprentices were Cubans. The company would maintain and even increase this ratio, but it refused to treat with the Central Labor union in matters pertaining to its employes. The officials said that they always were willing to meet a committee made up of workers from their factories, and they agreed to open the factory again if the men returned to work.

General Gomez and the committee afterward met the Central Labor union, and the old warrior did not spare words in his condemnation of the action of the union in calling out the men. He said it was a revolution and not a strike, and that the war veterans stood ready to take up arms in support of the government in order to maintain order. That ended the strike as far as the Central Labor union was concerned. It did not care to brave General Gomez's wrath, and word was sent out as soon as possible to have the men return to work. There may be some difficulty with the local unions, but the backbone of the strike is broken and undoubtedly most of the laborers will return to work.

## REFUSE CONFERENCE.

### Operators Object to Negotiations For Ending Dispute.

COMMISSION MUST DECIDE THE CASE.

[illegible] That Hearings [illegible] Resumed—Operators [illegible] Surprised at the [illegible] Mitchell. Independents Score a Victory.

Washington, Nov. 26.—The hopes for [illegible] between United [illegible] and the coal operators [illegible] coal [illegible] [illegible] reported [illegible] country [illegible] Coal and Iron [illegible] at a meeting [illegible] had been decided not to [illegible] Mr. Mitchell [illegible] been [illegible] for Friday next.

The [illegible] coming after an [illegible] between Mr. [illegible] and his associates [illegible] time by [illegible] endeavor to [illegible] proposed [illegible] [illegible] surprised [illegible] that source it is learned that the proposition that the operators meet Mr. Mitchell on Friday next was made at the instance of Mr. MacVeagh, who was no less surprised than Mr. Mitchell himself at the turn of affairs.

From statements made by Mr. Darrow the impression had spread that a [illegible] agreement would be effected at [the] conference, but when the meeting [broke] up Mr. Darrow returned to [illegible] men in the corridor [illegible] his room in Willard's hotel a statement which made it clear that no final agreement had been reached and that no further conferences were likely. [The] statement was as follows:

"The conference was simply a continuation of the conference held at [illegible] and was precisely the same [illegible] to reach a basis [illegible] for an amicable [settlement]. Mr. MacVeagh has not been in Scranton since Thursday, and [illegible] as to which [illegible] might be useful [illegible] operators or the representatives of the miners approach [illegible] formulating a definite [illegible] their signatures."

Mr. Mitchell when shown the dispatch from New York telling of the action of the operators, simply smiled and said [illegible] he had not asked for [the] conference, but that when it was suggested to him if it would be agreeable to meet the operators, he said it would. Mr. Darrow and Mr. Lloyd, [illegible] regarding [illegible] of the operators. Mr. Darrow said it was "now up to the operators" and that he would return at once to Scranton and on Tuesday next [illegible] before the commission [illegible] hearing. Mr. [illegible] holding in his hand the [illegible] referred to the fact that Friday's conference had been suggested [illegible] some matters on [illegible] some disagreement [illegible] Mr. Lloyd, "the same [illegible] last [illegible] wired [illegible] their assent to the [illegible] of the tentative agreement, and upon the strength of [illegible] the commission adjourned for a week in order to give the parties time to get together, now go completely back on their former action and call it all off. We are satisfied [illegible] before the commission and continue the hearing."

which we are very determined, that [illegible] to ourselves to have this investigation continue in order that testimony may be taken which will prove clearly to the public at large that the wages we have paid and the treatment accorded our men have been fair, and that their earnings have been large in proportion to the intelligence required and their willingness to work."

After discussing the wage question at length, maintaining throughout that their earnings were equal to those in other trades, he asserted that the testimony to be given before the commission would clear all doubts of the company's fairness and equitable treatment of their employes.

Continuing he said: "Thus far the general effect of the testimony presented has given undue prominence to Mr. Mitchell. In the four and one-half days in which he was kept on the stand the only point of value ascertained was that he was in sympathy with the miners and was not familiar with anthracite mining. Half an hour would have served the same purpose and prevented much sympathy-creating generalities. He said that others knew the situation better—they would be called. Probably these persons are to be the next witnesses for that side, and if they are men with a good record for [illegible] work, cross examination [illegible] what we have already stated, that their earnings are sufficient—and this could then be supported by our own witnesses. But our local attorneys and the superintendents of the collieries are best fitted for such questions. They are familiar with the details and can bring out the proofs.

"We think it highly desirable that any attempt at a compromise should immediately stop, that the investigation should continue, and that one or two of the individual operators, with your representatives, should collect and tabulate figures or earnings for the purpose of presenting them in evidence. After that our witnesses can appear.

"After struggling through the last five months with their losses and annoyances, it is a little matter to wait a short time more. A good fight is never useless, and, if in the end we should not win, it will be better to have ended with the dignity of a strong effort than to go on our knees now when we know the other side has practically exhausted its resources."

In the midst of the conference the request came from Washington to the operators of both classes to meet Mr. Mitchell and his associates next Friday. The parties present, without dissent, instructed Mr. Baer to make the following answer: "The conditions are such that no substantial progress can be made by the suggested meeting. The general judgment of operators is that it will be best for the present to go on with the hearing."

The list of operators present, besides those who signed the protest, included, acording to the statement issued by Mr. Baer, Lewis A. Riley, president of the Lehigh Coal and Navigation company, and Mr. Taylor of the St. Clair Coal company. They are called "operators from other regions."

The meeting of the independent operators and railroad officials lasted about an hour, and at its close President Fowler of the New York, Ontario and Western said that President Baer of the Reading was preparing a statement. Later the statement was issued and Mr. Baer left at once for Philadelphia.

### INDEPENDENTS PROTEST.

#### Objected to Private Settlement of Points In Dispute.

New York, Nov. 26.—During a [illegible] conference between the presidents of the coal roads and a large number of independent operators a [illegible] protest was entered by the independents against treating directly with the miners. An invitation to meet Mr. Mitchell [illegible] on Friday was [illegible] and it was agreed [illegible] that [illegible] operators it was best for them to go on with the hearing before the commission.

The protest was presented by Mr. Simpson, who said in part as follows: "In making our protest against any present settlement of the [questio]ns at issue, we desire to emphasize [illegible] points of material importance. The primary is called for May 5 next. The calling of a primary is an innovation with the party in this state, conventions having always been held heretofore, and the opponents of it asserted that a majority of the candidates and prospective candidates for state offices opposed holding a primary, but none of them went before the committee to make a protest. A committeeman, Charles W. Meacham, who dissented from the committee's action, filed a suit to enjoin the committee from holding the primary, and sets up the claim that the call is illegal and void and usurpation of power that the committee does not possess under the present party law.

# MRS. HELENA BLAU,

Young Milwaukee Society Woman.

Mrs. Helena Blau.

TEN thousand cured women have written to tell how Wine of Cardui bestows the blessing of health on every woman who takes it, rich and poor alike. Mrs. Helena Blau, No. 123 Seventh Street, Milwaukee, Wis., is one of the young women whom Wine of Cardui has rescued from a life of suffering. She writes:

"Wine of Cardui is certainly 'worn out' women's best friend and I am pleased to give my experience with it. A few months ago I caught a severe cold, having been out in inclement weather, which settled all over me, particularly in the abdomen. I was in almost constant pain. I consulted a physician and took his medicine for a month and without any relief. I then decided I would try your medicine and it was a lucky day for me when I did so. I noticed a change in a few days and felt encouraged to continue taking Wine of Cardui, and my patience was rewarded, for in two weeks my pains had left me and I felt like a new woman."

The woman who has suffered from female weakness should do anything within reason to secure health. Wine of Cardui is the medicine that appeals to reasonable women—women who hold operations and cutting in horror—women who know that Nature is the best physician. Wine of Cardui gives women back their health by giving Nature a chance to build up the wasted and diseased tissue. Wine of Cardui regulates the menstrual flow and Nature, when relieved of the drains or of the poisons in the system, makes the functional organs strong and healthy again.

Any woman who is silently suffering untold pains because she is too sensitive to undergo a physician's examination and treatment can find no excuse for not securing relief when Wine of Cardui is offered to her. There is no publicity to deter her. She can take Wine of Cardui in the privacy of her home, with as much assurance of a final cure as though a dozen doctors recommended it. Many physicians do recommend Wine of Cardui to their patients.

Why not get a $1.00 bottle of Wine of Cardui from your druggist today?

WINE of CARDUI A million suffering women have found relief in Wine of Cardui.

FURS!

A few words about fur scarfs that will be interesting to fur buyers. The matter of purchasing furs is peculiar for several reasons: Namely, the merchant who buys furs right and gets his furs perfect, must buy very early in the season. The H. H. Griggs Company, with which we are associated, bought early in the season, nearly one quarter of a million of dollars worth of furs, to be made up during the early season from the choicest skins. Naturally as the season progresses the stock of raw skins diminishes and later buyers must take what is left. Another strong reason is no manufacturer can produce finished furs today at the same cost he did early in the season. These are sufficient reasons why we buy our furs early and in large quantities. We have in stock today the largest line we have ever had. Embracing everything from a Coney at 75c up to the finest Sable and Martin. Compare our prices on furs with any on the market, that is all we ask.

Our furs are all perfect. No bad skins used and no imperfections. We carefully inspect every piece and return any fur that is not absolutely perfect. We do not offer any piece to our trade that is not the very best to be had in its class.

When you are ready to buy furs give our line your attention. It means much to you.

Come to the Fountain for your Dry Goods, Carpets and ready to wear garments. You will not be disappointed. We will give you the very best of everything on the market for the money.
